Statement No. 1092

**STATEMENT TO CHANGE THE IMPLEMENTATION CONDITIONS  
APPLYING TO A PROPOSAL  
(Section 46 of the *Environmental Protection Act 1986*)**

**RESOURCE RECOVERY FACILITY, RED HILL**

**Proposal:** The proposal is to construct and operate a resource recovery facility within the existing Red Hill Waste Management Facility, City of Swan, for the processing of waste to produce energy, using either anaerobic digestion technology or gasification technology.

**Proponent:** Eastern Metropolitan Regional Council  
Australian Business Number 89 631 866 056

**Proponent Address:** 1<sup>st</sup> Floor Ascot Place, 226 Great Eastern Highway  
BELMONT WA 6984

**Report of the Environmental Protection Authority:** 1623

**Previous Assessment Number:** 1844

**Previous Report Number:** 1487

**Preceding Statement/s Relating to this Proposal:** 976

Pursuant to section 45 of the *Environmental Protection Act 1986*, as applied by section 46(8), it has been agreed that the implementation conditions set out in Ministerial Statement No. 976 dated 9 July 2014, be changed as specified in this Statement.

**Condition 10 is added to Statement 976**

**10 Residual Waste**

10-1 The proponent shall manage the implementation of the proposal to meet the following environmental objective:

Ensure that the Red Hill Resource Recovery Facility has the ability to accept residual waste only as defined in Table 3 in Schedule 3 by implementing conditions 10-2 to 10-4.

- 10-2 Prior to commissioning and thereafter by 31 October each year, the proponent shall develop (or revise) and submit a Waste Acceptance System Plan to apply the objective specified in condition 10-1, which includes the following:
- (1) a description of the waste types that the facility could accept, if it only operated on residual waste;
  - (2) a description of the source separation processes, as provided by the generator of the waste, for the waste streams that are accepted at the facility;
  - (3) details of, and justification for, the procedures and measures that the proponent has implemented to achieve the objectives specified in condition 10-1; and
  - (4) a detailed description of the learnings from the previous year(s) on how the objective specified in condition 10-1 and the Waste Acceptance System Plan can be better achieved and/or improved.
- 10-3 Prior to commissioning, and after receiving notice in writing from the CEO that the Waste Acceptance System Plan satisfies the requirements of condition 10-2, the proponent shall immediately:
- (1) implement the approved Waste Acceptance System Plan; and
  - (2) continue to implement the approved Waste Acceptance System Plan unless and until the CEO has confirmed by notice, in writing, that implementation is no longer required.
- 10-4 The proponent shall demonstrate compliance with condition 10-1 by annually undertaking an independent review of the Waste Acceptance System Plan, and reporting it to the CEO in the Compliance Assessment Plan required by condition 4-1.

## **Condition 11 is added to Statement 976**

### **11 Waste Acceptance Monitoring and Management**

- 11-1 The proponent shall manage the implementation of the proposal to meet the following environmental objective:

Demonstrate that waste types not permitted for processing, detailed in Table 2 of Schedule 1 and Table 2 of Schedule 2, are not accepted or processed at the Red Hill Resource Recovery Facility by implementing conditions 11-2 to 11-8.

- 11-2 Prior to commissioning, the proponent shall develop (or revise) and submit a Waste Acceptance Monitoring and Management Plan to meet the objective specified in condition 11-1, which includes the following:

- (1) detail the proposed monitoring methodology to:
    - (a) identify the supplier of each waste load;
    - (b) record all waste loads, including the quantities, received on site;
    - (c) describe the types of residual waste accepted on the site, including the source separation process for those waste types;
    - (d) record waste types disposed offsite; and
  - (2) detail a procedure to summarise the results of monitoring outlined in condition 11-2(1).
- 11-3 Prior to commissioning, and after receiving notice in writing from the CEO that the Waste Acceptance Monitoring and Management Plan satisfies the requirements of condition 11-2, the proponent shall:
- (1) implement the approved Waste Acceptance Monitoring and Management Plan; and
  - (2) continue to implement the approved Waste Acceptance Monitoring and Management Plan, unless and until the CEO has confirmed by notice, in writing, that implementation is no longer required.
- 11-4 The proponent shall demonstrate compliance with condition 11-1 by:
- (1) providing the summary required by condition 11-2(2) of the monitoring results in accordance with the requirements of the Waste Acceptance Monitoring and Management Plan, every six months from the date of commissioning, until the CEO has confirmed by notice, in writing, that monitoring is no longer required.
- 11-5 The proponent will retain the results of monitoring required by condition 11-4 and shall make those results available when requested by the CEO.
- 11-6 The proponent may review and revise the Waste Acceptance Monitoring and Management Plan.
- 11-7 The proponent shall review and revise the Waste Acceptance Monitoring and Management Plan as and when directed by the CEO.
- 11-8 The proponent shall implement the latest revision of the Waste Acceptance Monitoring and Management Plan, which the CEO has confirmed by notice, in writing, satisfies the requirements of condition 11-2.

The terms and phrases are deleted and replaced with Table 3:

**Table 3: Abbreviations and Definitions**

<b>Acronym or Abbreviation</b>	<b>Definition or Term</b>
ANZECC	Australian and New Zealand Environment and Conservation Council
CEO	The Chief Executive Officer of the Department of the Public Service of the State responsible for the administration of section 48 of the <i>Environmental Protection Act 1986</i> , or their delegate.
Criteria pollutants	Key air pollutants set by the National Environment Protection Measure for Ambient Air Quality, which includes carbon monoxide, ozone, sulfur dioxide, nitrogen dioxide, lead and particles (PM <sub>10</sub> ).
DER	Department of Environment Regulation
EPA	Environmental Protection Authority
EP Act	<i>Environmental Protection Act 1986</i>
ha	hectare
Odour unit	The concentration of odorant(s) at standard conditions that elicits a physiological response from a panel (detection threshold) equivalent to that elicited by one Reference Odour Mass (ROM), evaporated in one cubic metre of neutral gas at standard conditions.
Residual Waste	Waste that remains after the application of a better practice source separation process and recycling systems, consistent with the waste hierarchy as described in section 5 of the <i>Waste Avoidance and Resource Recovery Act 2007</i> (WARR Act), and the Waste Strategy approved or revised from time to time under the WARR Act.
tpa	Tonnes per annum
