

Public record pursuant to s39(1) of the *Environmental Protection Act 1986*

Proposal Title: Tim's Thicket Liquid Waste Facility Upgrade

Proposal Location: 15 km south of Mandurah

Case Number: CMS 17070

Date referral received: 13-03-2017

Date more information received: 07-06-2017 and 13-07-2017

Referrer: City of Mandurah

Proponent: City of Mandurah

Potential significant effects:

There is some current groundwater impact and the potential for additional groundwater impacts if the facility is not designed and managed appropriately. There is the potential for impacts to amenity through odour.

Preliminary key environmental factors:

Inland Waters Environmental Quality and Social Surroundings

Public comment on referral information:

Do not assess:	0
Assess: a) Referral information	0
b) Environmental review - no public review	0
c) Public environmental review	24
<i>Total submissions:</i>	24

Decision: s. 39A – Assess

Level of assessment:

Referral information

Explanation of decision:

The potential impacts to groundwater and from odour can be assessed based on the available information provided in the referral documentation. The proponent has addressed public comments on the referral. It is likely that potential impacts would be managed through a Part IV Ministerial Statement (proposal area) and Part V licence (emissions and discharges).

Appeals: Decision not appealable

Dr Tom Hatton
