Do not assess:	0
Assess: a) Referral information	1
b) Environmental review - no public review	1
c) Public environmental review	0
<i>Total submissions:</i>	2

Decision: s. 39A – Not Assess

Referral Examined, preliminary investigations and inquiries conducted. Proposal not to be assessed under Part IV of the *Environmental Protection Act 1986* (EP Act).

Explanation of decision:

The EPA considers that the likely environmental effects of the proposal are not so significant as to warrant formal assessment because it is of small scale and short duration, and the extent and consequence of the potential impacts as a result of the proposal are predicted to be small. The EPA is of the view that the potential impacts of the proposal can be adequately managed through implementation of the proposal in accordance with the referral documentation, and the proponent's management and mitigation measures, including monitoring turbidity during extraction and placement, and timing works to avoid the potential nesting of shorebirds and marine turtles.

Appeals: This decision is appealable. Appeals close 28-01-2019. Appeals are administered by the Office of the Appeals Convenor.

Dr Tom Hatton
