## MAP NOTES

- ① Small areas around treated sewerage wastewater discharge points where social values are not protected
- ② Small areas around wharves, jetties, berths and/or saline discharge points with a lower level of ecological protection
- ③ Small areas around produced formation discharge point with a lower level of ecological protection
- ④ Areas around salt works discharge with a lower level of ecological protection

## ENVIRONMENTAL QUALITY OBJECTIVES (EQOs) AND LEVELS OF ECOLOGICAL PROTECTION (LEPs)

**Ecosystem Health Value:**  
The EQO for this value has four levels of ecological protection (Maximum, High, Moderate, Low) reflecting conservation significance and community expectations for each area.

**Social Use Value:**  
The EQOs for these values apply everywhere (e.g. the quality of all marine waters should be safe for swimming and fishing unless otherwise designated) **except** where marked (note the colour code).
