

Our Policy

Environment

At Alinta, we have an on-going commitment as an environmentally responsible business.

The goals of Alinta's Environmental Policy are:

To be recognised as an environmentally responsible company

To demonstrate responsible and diligent governance of our operations in the environment in which we operate

To ensure management and employees work together to limit adverse environmental effects in providing for the efficient, safe and reliable distribution and supply of energy and energy related services

Alinta seeks to achieve these goals by:

Promoting an organisational culture which supports and promotes environmental responsibility through education and training of our people in environmental matters

Conducting our operations in accordance with legislation, government policies and planning approvals

Assessing and limiting potential adverse environmental impacts of our current and future operating activities

Working within a framework of sustainable development by using resources in a manner which recognises their value to the community and to future generations

Contributing to business and governmental agency programs and to community educational activities, that will enhance environmental awareness and protection

Where possible and practicable facilitating pro-active environmental initiatives sponsored by stakeholders

Periodically reviewing our environmental policies and processes to identify and implement continuous improvement opportunities

Providing periodic environmental performance reports to our employees, environmental authorities and stakeholders.

Alinta is committed to being a signatory of the Australian Greenhouse Challenge program and the Energy Supply Association of Australia Code of Environmental Practice. Alinta's corporate strategy embraces environmental management principles by maintaining compliance to ISO 14001 for proactive planning, sustainable development and self-assessment for continuous improvement. The environmental management system will maintain external certification to the International Standard ISO 14001.

We, at Alinta, view environmental management as everyone's responsibility and therefore it is imperative that all our employees contribute to the implementation of this Policy through the approved Environmental Management System.
