**Exploration Licence 74/135, Ravensthorpe Range
(546/733)**

**Schedule of conditions to be imposed by the Minister for Mines under the
Mines Act - as amended June 1992.**

SCHEDULE OF ENDORSEMENTS/CONDITIONS - EXPLORATION LICENCE
74/135

ENDORSEMENTS

1. The land the subject of this licence does not include land the subject of Prospecting Licence 74/132, Mineral Lease 74/485 and Mining Lease 74/63 and rights of ingress and egress are to be preserved at all times to the licensee/lessee.

CONDITIONS

1. Compliance with the provisions of the Aboriginal Heritage Act, 1972 to ensure that no action is taken which would interfere with or damage any Aboriginal site.
2. All surface holes drilled for the purpose of exploration are to be capped, filled or otherwise made safe after completion.
3. All costeans and other disturbances to the surface of the land made as a result of exploration, including drill pads, grid lines and access tracks, being backfilled and rehabilitated to the satisfaction of the District Mining Engineer. Backfilling and rehabilitation being required no later than 6 months after excavation unless otherwise approved in writing by the District Mining Engineer.
4. All waste materials, rubbish, plastic sample bags, abandoned equipment and temporary buildings being removed from the mining tenement prior to or at the termination of exploration programme.
5. Unless the written approval of the District Mining Engineer, Department of Mines, is first obtained, the use of scrapers, graders, bulldozers, backhoes or other mechanised equipment for surface disturbance or the excavation of costeans is prohibited. Following approval, all topsoil being removed ahead of mining operations and separately stockpiled for replacement after backfilling and/or completion of operations.
6. No mining on Water Supply Reserve 11577 and Steere River without the prior written consent of the Minister for Mines.
7. The grant of this licence not inferring automatic approval to mine or the subsequent grant of a mining lease in accordance with Section 75 of the Mining Act unless and until a proposal is referred to the Environmental Protection Authority under Part IV Section 38 of the Environmental Protection Act 1986.

8. Prior to any significant ground-disturbing activity, as defined by the State Mining Engineer, in the designated environmentally sensitive area, the licensee preparing a detailed programme for each phase of proposed exploration for approval of the State Mining Engineer in agreement with the Regional Manager, Department of Conservation and Land Management, the National Parks and Nature Conservation Authority and for referral to the Environmental Protection Authority. This programme to include:
- i) Maps and/or aerial photographs showing the proposed locations of all roads, tracks, camps, costeans and other disturbances;
 - ii) The purpose, specifications and life of such roads, tracks, disturbances, etc;
 - iii) Descriptions of all vegetation types (in general terms), land forms, and unusual features likely to be disturbed by such proposed disturbances. The Regional Manager, Department of Conservation and Land Management specifying the level of vegetation description;
 - iv) Proposals which may disturb any declared rare or geographically restricted flora and fauna;
 - v) Techniques, prescriptions, and timetable for rehabilitation of all proposed disturbances;
 - vi) Undertaking for corrective measures for failed rehabilitation;
 - vii) Details of water requirements from within the reserve;
 - viii) Details of refuse disposal;
 - ix) Proposals for instruction and supervision of personnel and contractors in respect to environmental conditions; and
 - x) Description of the environmental impacts and programmes for their management.
9. Unless the written approval of the State Mining Engineer, Department of Mines, is first obtained, the use of scrapers, graders, bulldozers, backhoes or other mechanised equipment for surface clearing or the excavation of costeans is prohibited. Following approval, all topsoil being removed ahead of mining operations and separately stockpiled for replacement after backfilling and/or completion of operations.

10. The licensee, at his expense, capping or filling all holes drilled, rehabilitating all areas cleared or otherwise disturbed and backfilling all volumes excavated during the term of the licence to the satisfaction of the State Mining Engineer in agreement with the Regional Manager, Department of Conservation and Land Management. Backfilling and rehabilitation being required no later than six months after excavation unless otherwise approved in writing by the State Mining Engineer. Drill holes are to be capped or filled immediately after completion.
11. The lessee submitting to the State Mining Engineer, in February of each year, a brief annual report in triplicate for review outlining the operations and rehabilitation work undertaken in the previous 12 months and the proposed operations and rehabilitation programmes for the next 12 months.
12. The Regional Manager, Department of Conservation and Land Management, being supplied with an itinerary and programme of the locations of operations on the licence area and informed at least seven days in advance of any changes to that itinerary.
13. The licensee complying with and ensuring that all persons under its control operating in the licence area are aware of and comply with the provisions of:-
 - i) the Conservation and Land Management Act 1984, and the Regulations thereunder,
 - ii) the Bush Fires Act, 1954-77, and the Regulations thereunder; and
 - iii) the Wildlife Conservation Act 1950, as amended, and the Regulations thereunder (excepting the Regulations 46 a, b, c, d, g 1, L and O, insofar as non-compliance occurs as an unavoidable incident or reasonable consequence in the performance of the approval exploration programme).
14. Prior to accessing the licence area, the licensee shall consult with the Regional Manager, Department of Conservation and Land Management, and ensure that where required all vehicles and equipment entering the designated environmentally sensitive area are washed down to remove soil and plant propagules and adhering to such conditions specified by the Regional Manager, Department of Conservation and Land Management, for the prevention of the spread of soil-borne diseases.

15. Access to and from and the movement of vehicles within the licence area being restricted to ground or seasonal conditions and routes approved under the programme or otherwise agreed by the Regional Manager, Department of Conservation and Land Management.
16. Prior to the cessation of the exploration/prospecting activity in the environmentally sensitive area, the licensee notifying the State Mining Engineer, the Regional Manager, Department of Conservation and Land Management, and the Chairman of the Environmental Protection Authority and arranging an inspection as required.
17. All waste material, rubbish, plastic sample bags, abandoned equipment and temporary buildings being removed from the mining tenement prior to or at the termination of the exploration programme.
18. The licensee making provisions to prevent spillage of fuel and discharge of pollutants generally and for all exploration sites being kept free from any rubbish and being left in a clean and tidy state.
19. The licensee not establishing any camp, base works or area, fuelling depot or similar establishment on the licence area unless the site and access has received prior approval of the Regional Manager, Department of Conservation and Land Management.
20. No soap, detergent or other foaming agent being used in any watercourse or rockhole nor any rubbish or other polluting material being deposited in any watercourse or rockhole.
21. Domestic animals, traps or firearms not being taken onto the designated environmentally sensitive area.
22. Such further conditions for protection of the land environment and rehabilitation of the land as the Minister for Mines may from time to time impose.
23. The licensee submitting the programme for ground-disturbing activity cited in condition 8 for the whole of the area of Exploration Licence 74/135.
