

Public record pursuant to s39(1) of the *Environmental Protection Act 1986*

Proposal Title: Warrawoona Gold Project

Proposal Location: 25 km south of Marble Bar

Case Number: CMS 17723

Date referral received: 29-10-2019

Date more information received:

Referrer: Calidus Resources Ltd

Proponent: Calidus Resources Ltd

Potential significant effects:

There are potential impact on: Flora and Vegetation from the clearing of 398 ha, including several small populations of Priority 4 flora. Terrestrial Fauna from the clearing of foraging habitat and from disturbance of bat roosts, including the direct loss of 2 diurnal roosts and risk of indirect impacts from noise, vibration and humidity changes to breeding roosts.

Preliminary key environmental factors: Terrestrial Fauna, Flora and Vegetation, Inland Waters.

Public comment on referral information:

Do not assess:	2
Assess: a) Referral information	0
b) Environmental review - no public review	0
c) Public environmental review	0
<i>Total submissions:</i>	2

Decision: s. 39A – Assess

Level of assessment:

Environmental Review on Referral Information– Two week Public Review

Information, on Matters of National Environmental Significance (Listed threatened species and communities) will be published on the EPA website for a 2 week public review.

Other details

The proponent referred the project to Commonwealth on the 22/11/2019 and on the 19/2/2020 was deemed as a controlled action and to be an accredited assessment.

Explanation of decision:

On the 18/12/2019 the EPA set Level of Assessment as Review on Referral Information– No Public Review. With this proposal being deemed a controlled action and to be assessed as an accredited assessment the EPA is required to update the Level of Assessment to include a two week public review.

Appeals: Decision not appealable.
