

The tools you wanted to help shape the future for WA's best Resource Recovery Facility are now ready for you to inspect.

The Community Partnership Agreement is a unique and very special document.

It is the result of broad-based, comprehensive and intensive community consultation and feedback conducted during the past year.

It identifies and reflects what members of our community have told us they consider to be the important values and issues the Mindarie Regional Council *must* address as it prepares the tender documents for construction and operation of a Resource Recovery Facility in the Neerabup Industrial Area.

The Community Partnership Agreement identifies no less than 20 different objectives and 66 associated outcomes the community wants this project to deliver in order for it to achieve broad support and significant environmental benefits.

The MRC *will* deliver on its promise.

The CPA will fundamentally influence the facility's design and operations.

We welcome your comments on the **Community Partnership Agreement.**

Copies are available by phoning the MRC on **(08) 9305 6942** or check the website: **www.mrc.wa.gov.au**

Please forward your comments on the **Community Partnership Agreement** to the MRC, or CEAG members, by **Friday October 10 2003.**

Now, the Mindarie Regional Council invites you to obtain a copy of the CPA, and give us feedback, by contacting the MRC directly, or visiting our website.

You can also give your comments on the CPA to members of the Community Engagement Advisory Group, an independent body comprising community members established to provide a monitoring and community feedback role as the Mindarie Regional Council progresses this project.

The members of CEAG, and their contact details, are:
